

Wheres the Knight?

Do knights in shining armor still exist? Grandfather, George, and Meg the dog are on the hunt to find out. Even though the three manage to wander through a spooky old castle without seeing a single medieval warrior, sharp-eyed kids will see them everywhere. Over 100 knights are leaning out of the slit windows, hiding behind drawbridges, and even jousting! Little hands will have lots of fun seeking out the tactile spots on these embossed pages as they count the knights.
