

White Feathers: If I Had One More Day With You

What would happen if we were given one more day to spend with a loved one we had lost? Ruby DuPont loses her husband Charles to cancer after 40 years of marriage. She is devastated. We get a glimpse into their lives, both before and after marriage. After his death, Ruby is given one amazing day with Charles to reconnect and reflect on their lives together as well as the inexplicable signs that pointed to his impending death. Inspirational, even miraculous, we come to learn that faith is the binary code in this tale of lost love. The result is clarity on dealing with loss in a positive, self-affirming way.
