

King of Spice

To have a future they must face the past, but a long-held secret could destroy everything. Ambitious single mom Trini James is an up-and-coming Chicago radio host. Her career is on the verge of great things when she's called home to India to deal with a family issue. Helping her family also means she's forced to face a past she swore never to revisit. Trini soon discovers there is one person who has the solution to her family's problem: Ravinder Alvares. Ravinder is the handsome, charismatic owner of a business empire. He always gets what he wants and Trini James will not be an exception. She left him the day after their arranged marriage, but that was ten years ago and a lot has changed. Their parents are no longer in control of their destiny. He's determined to get Trini back using any means necessary. Trini vows to resist Ravinder's business proposition and his romantic advances. If she opens either door, most importantly the one to her heart, it might destroy them both. However, it could also give her spirit the freedom it so desperately needs. Is Ravinder's love enough to make her walk away from a career opportunity she might never get again? And will he still love her when he discovers the secret she has kept hidden all these years?
