

Waking Night

If I could travel the world in my dreams... Fe Ling never expected to wake up on Mount Everest barefoot, to cliff dive into an aquatic wonderland, or to dance weightlessly in the sky. Above all, she never expected to meet the man of her dreams--literally. But after falling into a deep, dark sleep one night, she encounters an intoxicating stranger who begins an adventure far beyond her wildest imagination. Night after night, she sees him, hears him, feels him, but he isn't real... Or so she thinks. As Fe dives deeper into the dangerous waves of her mind, the strange things happening to her body cause her to question whether somehow, this alternate dream world might actually be real.
